MEMO 4D®
Reshaping Mitral Repair

ReChord: Chordal Guide System
Standardizes neochordae implantation

Proven Annular Dynamics
Truly physiological three-dimensional motion to ensure natural behavior

Innovation Starts at the Core
Unique Nitinol Cell Structure

Stability and Support
Anterior Rigidity and Posterior flexibility to best support systolic function

Exclusive Gradual Saddle Shaping
Designed to optimize the physiological geometry in enlarged annuli

Unique Range of Sizes
Up to size 42 mm to treat large annuli

Increase of the Anteroposterior Diameter
Helps accommodate excess leaflet tissue and reduces the risk of Systolic Anterior Motion (SAM)

MEMO 4D: DESIGNED TO BEST SUPPORT YOUR TECHNIQUE.
MEMO 4D’s high-tech Nitinol core, thanks to its clinically proven physiological behavior, offers you a complete, long-lasting solution to treat MR. Now available with unique features to best support any repair.
